## ***HOW TO ACHIEVE A HEAVEN ON EARTH***

**Edited by John E. Wade II**

Whether it's finding spiritual harmony, reducing carbon emissions, quelling hostilities among races, cutting taxes, or feeding the hungry, every single person has the capacity to change the world for the better. Long-time New Orleans writer, editor, and philanthropist John E. Wade II has asked some of our most prestigious thinkers, writers, artists, experts, and leaders to consider how to improve the world. The result—this ambitious volume—is as much a social mission as it is an inspirational anthology. Herein lie thoughtful and hopeful reflections on a rich variety of issues ranging from racism, poverty, religious persecution, genocide and environmental deterioration, to individual consciousness, mental well-being, and community development.

One hundred contributions from such notable personalities as Al Gore, Tony Blair, Nicholas Kristof, Thomas L. Friedman, and George W. Bush explore variations on the themes of peace, security, freedom, democracy, prosperity, spiritual and racial harmony, ecology, health, and moral purpose and meaning. Focusing on the large problems of the world without losing sight of the little challenges people face every day, this collection of essays encourages readers to find meaning in their own lives and share it with others for the betterment of the world. Religious and secular, liberal and conservative, old and young, the luminaries who have contributed to this work offer their voices and thoughts to inspire movement toward creating a more harmonious world community.
